Index

promote [prə'məʊt]

“ to encourage the sale
(of a product) by advertising
or securing financial support ”

This is the driving strategy behind the selection and development of our range of promotional gadgets. Over the last 15 years we have witnessed huge growth in the popularity of tech products in consumer markets and as promotional marketing tools, such products now equate to 10% of all spend on promotional products worldwide. This growing market sector thrives on innovation and this is where we see our niche in the market.

We are proud to launch our 2014 catalogue and are delighted to say it's our best yet!

RESPONSIBLE

Following changes in legislation in 2010, all companies who supply promotional products should be able to demonstrate their compliance of those products to business customers, authorities and final consumers of their products.

Manufacturers and importers should create, manage and share “Technical Construction Files” that act as the confirmation their items are compliant. We chose a specialist partner in this area a company called ProductIP who are market leaders in this area and help to support change, stay in control and help manage supply chain risk. Working with our supplier partners around the globe is part of our culture and as part of this supply chain management we conduct regular audits to BSCI standards.

We want to ensure that fair conditions exist in all manufacturing plants we work with and find the BSCI Code of Conduct a comprehensive standard for this.

Some important goals of the BSCI code of conduct

- child labour is prohibited
- legal minimum wages are paid
- the working space is safe and healthy
- working hours are compliant with national laws
- there is no forced labour and disciplinary measures

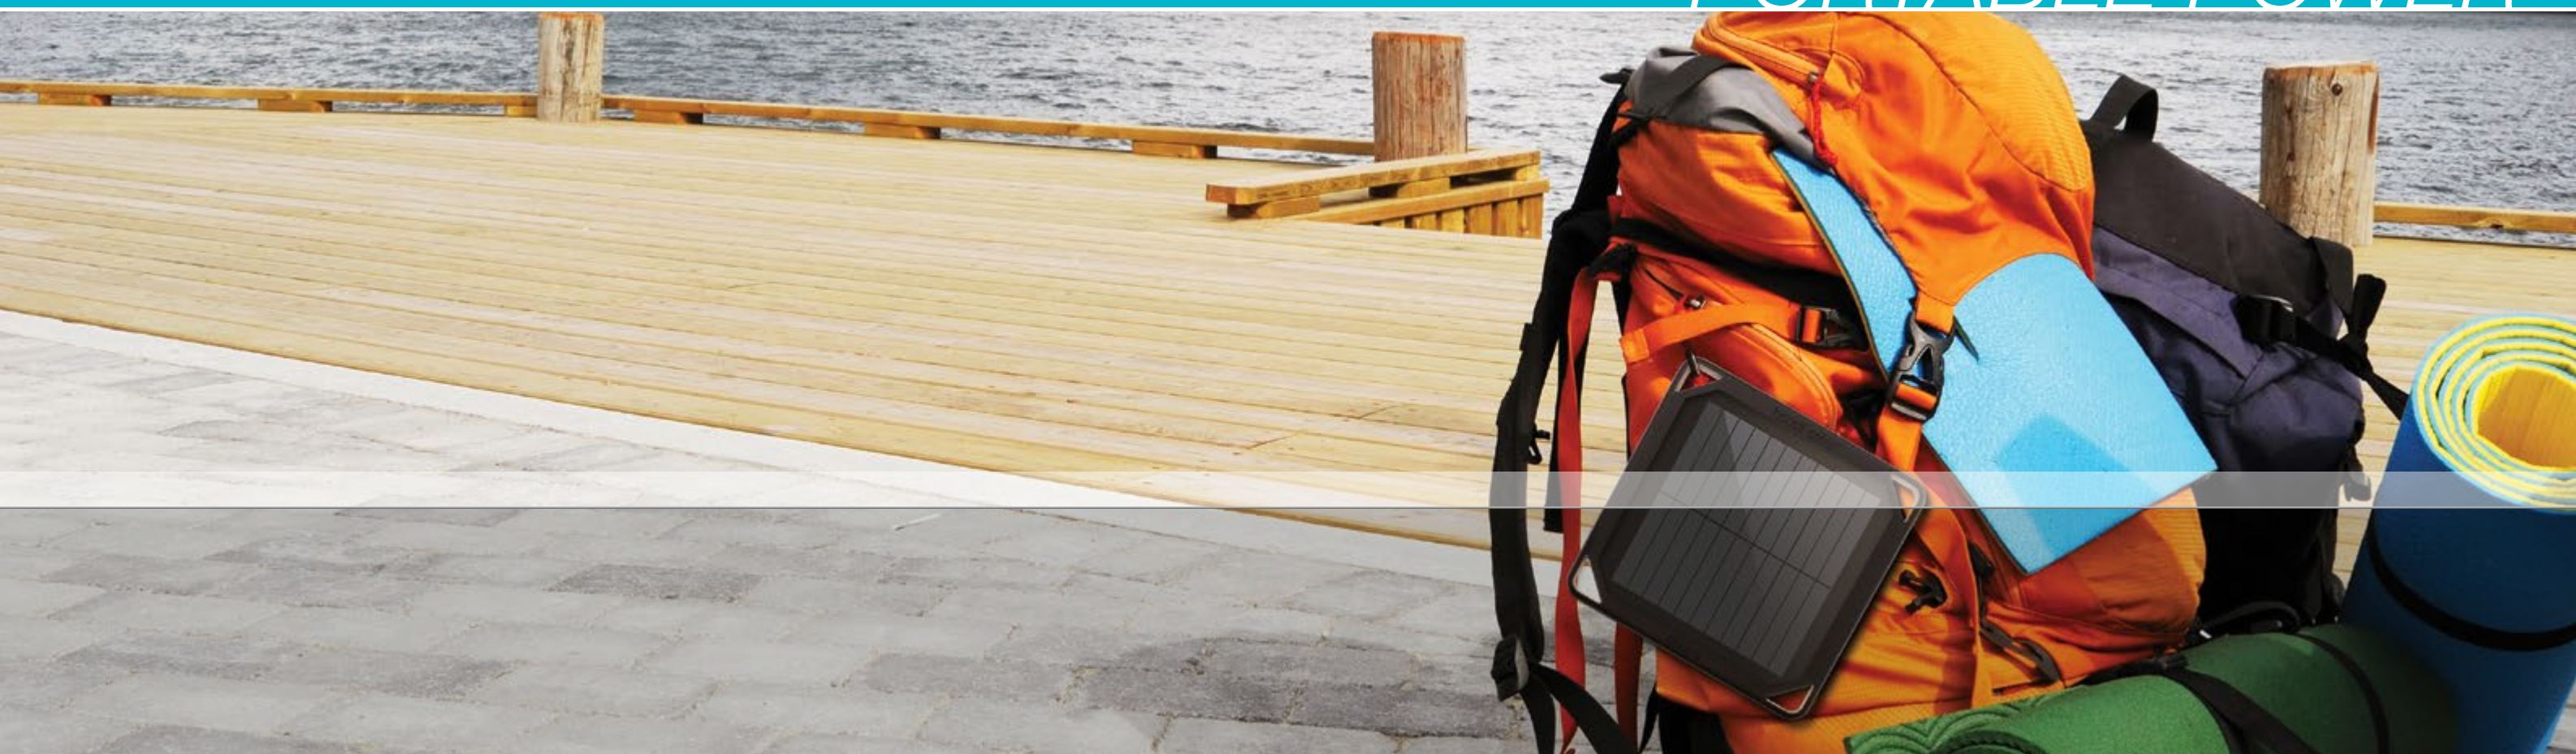

We are constantly being offered new gadgets & devices that require energy and to be recharged frequently...smartphones, tablets, e-readers, digital cameras, etc...

Therefore we have created a comprehensive range to suit all tastes and budget. Whether its USB, AC mains, solar or even wireless induction charging we have a solution for you.

These power chargers are all selected only once they meet our stringent quality standards and of course are selected with your branding needs in mind.

PORTABLE POWER

LED

EMPOWERED BY NATURE

2133 FR3X

This all-purpose, rechargeable weather alert radio with solar panel and hand turbine power generator will keep you in the know on alert, and well connected. No emergency kit is complete without it.

When the "Alert" function is on, the radio will automatically broadcast emergency weather alerts for your area such as hurricanes, tornadoes and severe storms.

There's an AUX-input to play your own tunes. To charge your smartphone, simply plug it into the USB port. The bright LED flashlight is always handy...at home, at the office, or even in the car. And the red flashing beacon is ideal for emergencies. Thanks to the glow-in-the-dark locator, the FR3X is always easy to find.

ULTIMATE BILLBOARD FOR YOUR LOGO

1000 Untangler™

C Basic: clear white, white, clear black, black

Special colours: clear grey, translucent blue, translucent orange, translucent yellow, red, blue, green. **Premium colour:** metal

It is what's on the inside...

...that matters

Having started this product in the promotional market we celebrate 15 years of selling flash drives in 2014. We see ourselves as being reasonable knowledgeable... enough to only select flash suppliers who are compliant, where we believe that the content on the sticks is worth a lot to your clients...

It's simple ...creativity, innovation, quality and reliability of service and components.

CUSTOMISED

keys, bottle, bus, can, home, ball, airplane, truck, train, hamburger, bread, lights, company logo's, radio, computer, ship, banana, battery, paperclip, mobile phone, corn, book, sports player, chocolate bar, golf club and bag, fragrance bottle, icecream, tires, people, surfboard, sneakers....and whatever you can come up with...

The MUST have
APP
for your flashdrive

AND
THIS IS
WHY

MORE branding The application may easily be created in your brand's style. This includes your logo, images, and even weblinks.

MORE memory Thanks to eego, every user profits from 1 GB* of online memory. This enables users to directly upload and store documents found on the flash drive online.

MORE users The eego application has several handy tools and apps that make using a flash drive so much easier and more attractive.

eego can help you stand out in the crowd

Looking for a flash drive promotion that will do more for your brand? One that will ensure that users don't just choose the first flash drive they see, but instead, pick yours? If so, go for eego! eego is a unique application that may easily be placed on any flash drive, and which will help you promote your brand even more explicitly.

eego, the boost every
flash drive promotion needs

*please check for details

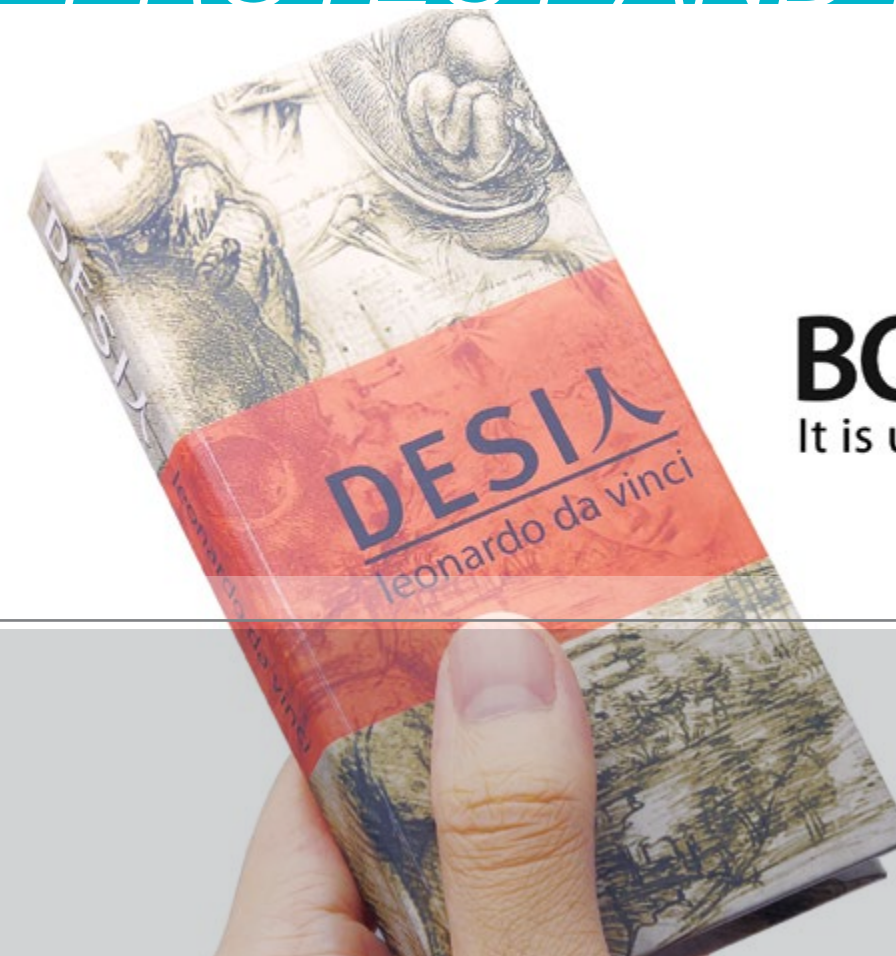

Everything you need for the ultimate
Flash drive promotion

Is it a book or bookcover?

This is a very unique hardback case designed as a book. It is a protective case cover that gives a classic, one-of-a-kind vintage style look of a book. No one will suspect your mobile phone and pad hidden tucked into a BOOK Cover.

Technology is changing daily and this trend looks to continue into the future. In this section of our catalogue we have collated some of the latest products and technology trends all suited to promoting your brand. There are lots of technology buzz words currently in the media such as NFC, Bluetooth, MFI, WiFi, “App-cessory”, Wireless media streaming the list goes on Many of these new technology trends features in the coming pages, why not call us to find out more

LATEST TRENDS

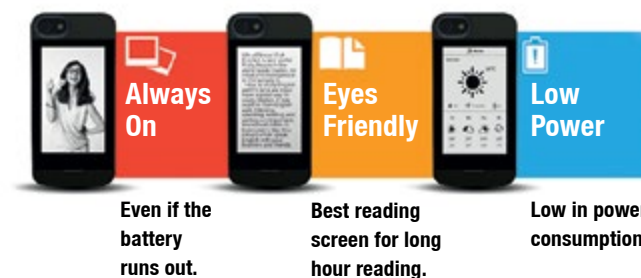

What about a second screen for your smartphone? Huh.

E-ink screens we know from e-book readers. These screens take very little power and are optimal for reading as they do not have the strong backlight. It's so much like paper, it utilizes the same pigments used in the printing industry today.

So, imagine the back of your phone a 3,5 inch screen for reading, pictures, weather info.... The case has 512mb internal memory and uses bluetooth to transfer info from your smartphone to be published on the extra screen.

2114 E-INKCASE

Size: 125 x 62 x 13 mm
Imprint: 25 x 14 mm
Colour: WH, BK
