

## 1856-WT Xoopar YoYo Speaker Wheat

A mighty impact from a compact speaker. What better way to communicate the values of being more environmentally aware than a gadget that appeals to anyone who likes music on the move but who doesn't want an item that is unnecessarily large or uses too much material in design. The YoYo delivers on sound with its massive 3 Watt sound, convenience (only 34 mm tall) and eco credentials with the body now being made with our Wheat composite material.

### FEATURES

Portable mini speaker made from eco material - With string for easy carrying - True Wireless Stereo: Pair for double fun
