

ZERO SNAP

magnetic wireless speaker

Zero Snap is a magnetic speaker designed to attach securely to most metal surfaces, while also being MagSafe compatible with iPhone 12 and newer models. It doubles as a phone stand while boosting your music wherever you go.

For phones that are not MagSafe compatible, a metal ring is included so you can easily attach the speaker to your device.

Pair two Zero Snap speakers together for an even bigger stereo sound experience. It also features a remote selfie function, allowing you to activate your phone's camera from a distance.

Waterproof and adventure-ready, Zero Snap is built for pool days, outdoor trips, and everyday life on the move.

The shell is made from ocean-bound recycled plastic, and the design includes easy battery removal at end of life, making this a speaker with not just big sound, but bigger ideas about how we can tread a little lighter on the planet.

Technical Specifications

• Product Name	Zero Snap Speaker	• Battery	400 mAh
• Type	Dual pairing portable Bluetooth speaker	• Driver	4Ω 5W, 45mm
• Colours	Black / Blue / White / Orange / Green / Violet	• Charge Time	1.5 hours
